Student Age : 19-Adult  
Table Height : 82 cm  
Seat Height : 51 cm

DESIGN  
IDEAS

# DESIGN IDEAS

# Multi Media Rooms

The Multi media room is an inspiring creative and interactive learning environment. It is important to include lots of different areas to encourage different styles of learning and support the use of various furniture. Colourful and flexible furniture encourage spontaneous creative thinking and group brainstorming.

Group Work

Team Series

Booth Seat

Slice Table

Media Work Station

Curve Collaboration System

Individual Work

## Learning Resource Centre

The recent move towards the use of mobile devices means learning resource centre now need to be more multifunctional than before. Not only need to provide functional storage for books but also lots of different areas that encourage group work or one to one research with mobile devices.

## Kid's Library

The recent move towards the use of mobile devices means learning resource centre now need to be more multifunctional than before. Not only need to provide functional storage for books but also lots of different areas that encourage group work or one to one research with mobile devices.

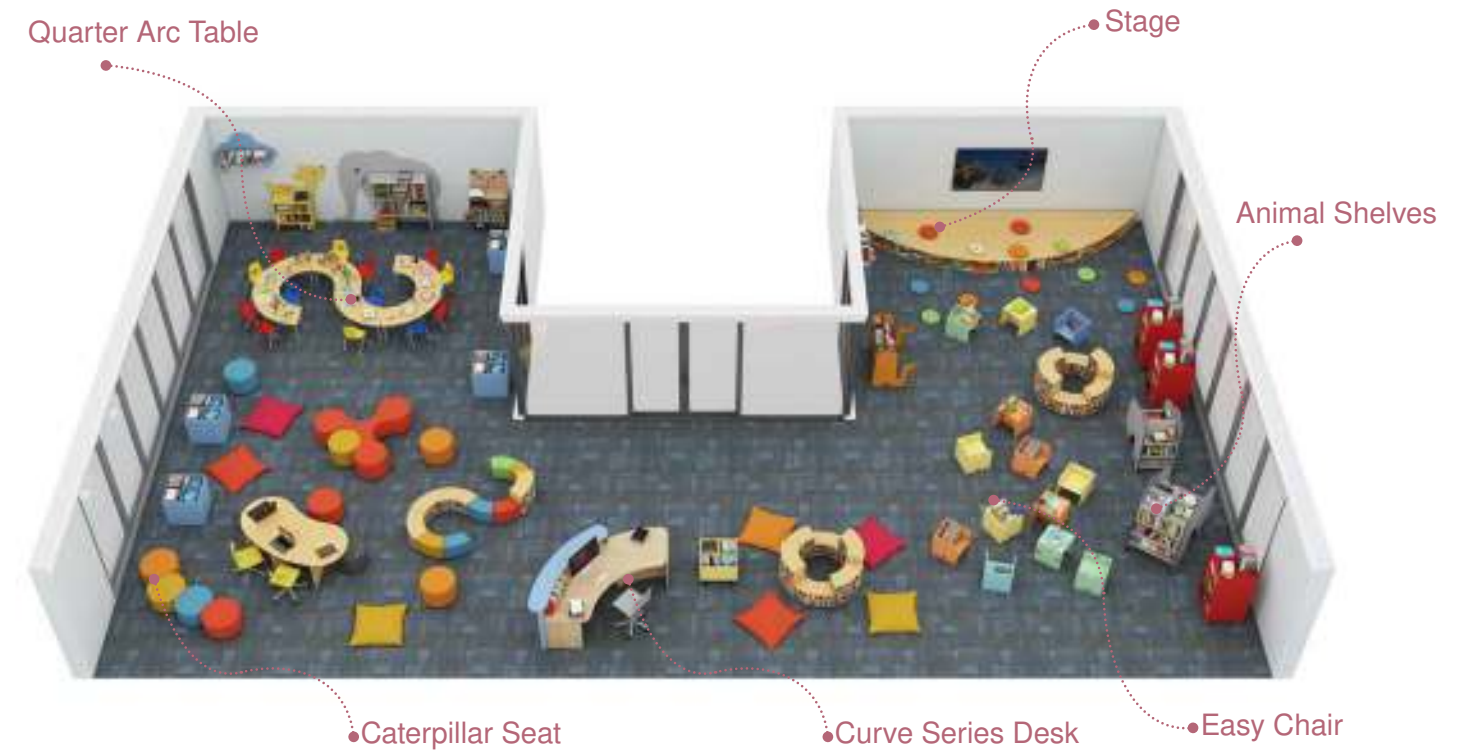

# Kindergarten Library

Learning environments of kids needs a flexible layout which can be change easily, places that are capable of accommodating lots of different learning and teaching styles. The library heart of the school where student can meet up socially, creating another flexible space that can accommodate a range of uses.

## Fab Lab

A fab lab (fabrication laboratory) is a small-scale workshop offering (personal) digital fabrication. The furnishing idea of Fab Lab is creating a supportive environment and infrastructure for innovation. Equipped With an array of flexible computer-controlled tools that cover several different length scales and various materials, with the aim to make “almost anything” Mobile technology combined with agile furniture can revolutionise how computer science is perceived by students.

## Design Technology Lab

Maker space should be a place where learning comes from hands-on exploration, designing, making, and tinkering. A place of independent, self directed learning that is deeply collaborative and technology enabled. To enable free-reign independence the space has to be well laid out and super-organised.

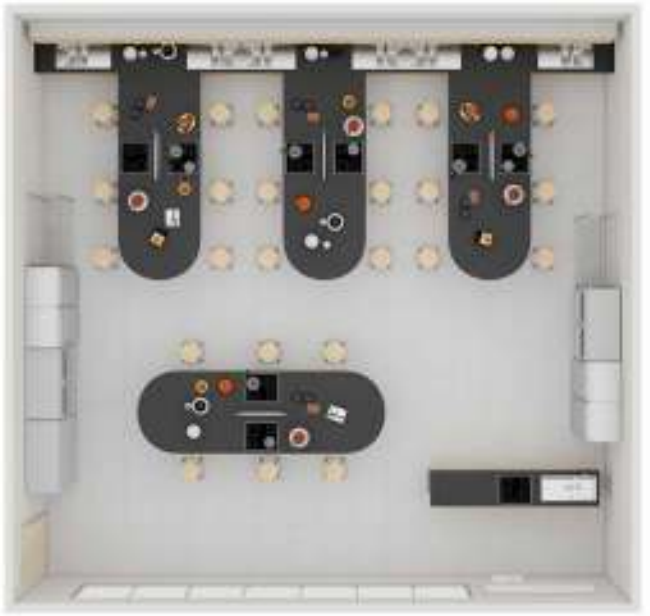

# MAKER SPACE

# Food Lab

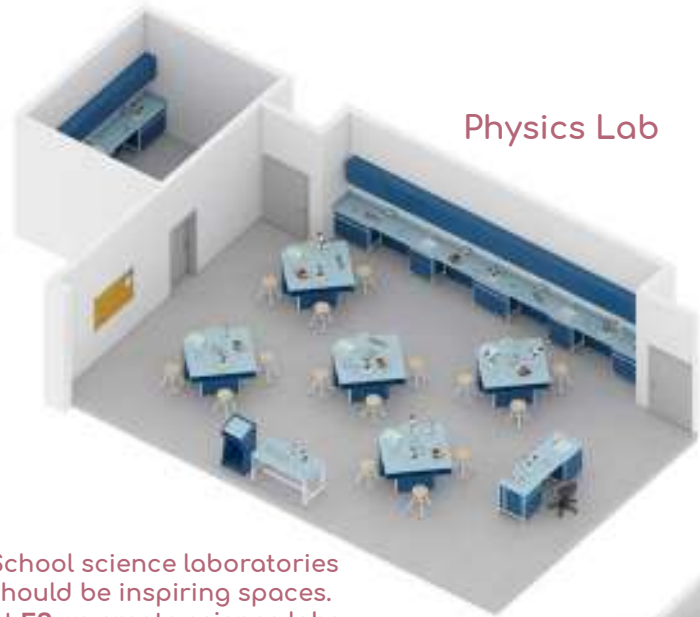

If you are working on a food laboratory project, we can provide an end-to-end solution, from the floor plan design all the way to installing metal lab cabinets, which we manufacture WITH Our approved QC production plant.

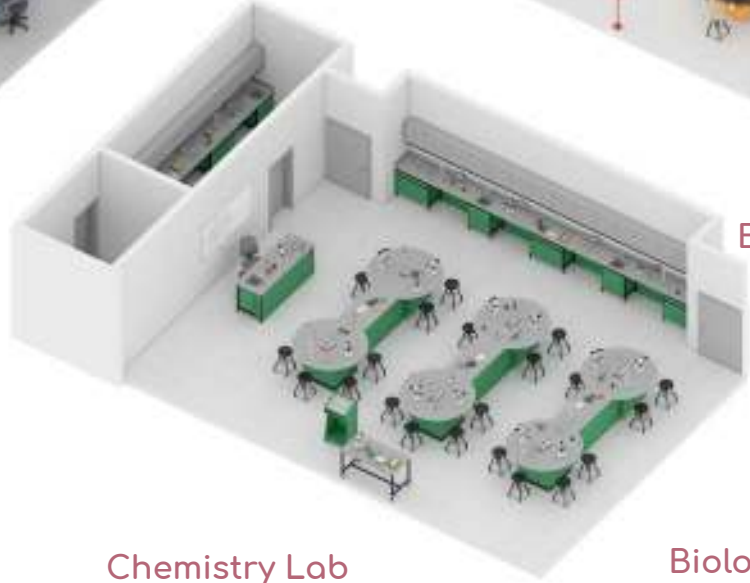

# Science Labs

Physics Lab

Chemistry Lab

Biology Lab

School science laboratories should be inspiring spaces. At ES we create science labs that will stimulate practical experimentation, interactive learning, group discussion and individual research.

Our team can co-ordinate the supply & installation of your school science laboratory furniture and also offer a full turnkey refurbishment service, if required. This one-stop-shop solution includes the co-ordination of all trades – an invaluable service for busy school staff.

Physics Lab

Chemistry Lab

Biology Lab

# Computer Lab

Modern computer labs need to accommodate a wide range of user needs, changes in technology and regulatory requirements such as ADA compliance. Since 1997, SMARTdesks has provided computer lab furniture for K12 schools, colleges and universities across UK. We offer a wide variety of computer lab workstations and computer lab tables that can be customized around your unique scenario.

Kindergarten Classrooms

• Forest Serie - E061

Varied learning spaces increase creativity and collaboration. mix shapes and colours with multiple configurations to encourage your students to learn where they feel most inspired.

Half Round Tables - E011C

Half ArcTables - E011A

Kindergarten Classrooms

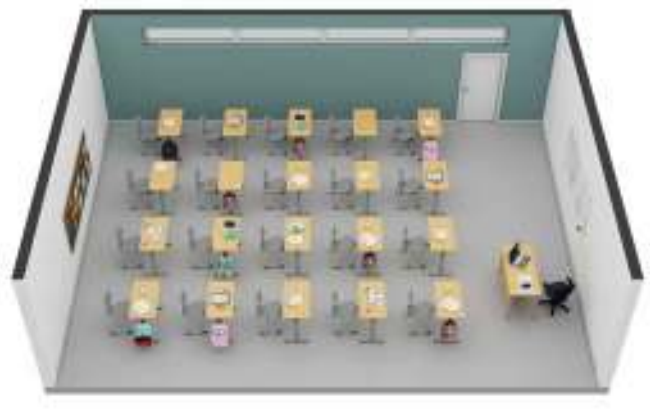

Varied learning spaces increase creativity and collaboration. mix shapes and colours with multiple configurations to encourage your students to learn where they feel most inspired.

# Creative Classrooms

A good learning atmosphere begins with the right environment!

# Modern Classrooms

Modern classrooms are moving away from the traditional classroom layout, in favor of a more flexible set-up, to facilitate collaborative working. Therefore it's important to have a classroom that can be adjusted to fit-in with different types of learning activities.

Rather than being rooted to individual desks in a traditional classroom set-up, students need to be able to move around and gather together where needed. To maximize flexibility, and make it easy to change-up your classroom set-up we can create modern and out of box ideas for your 21st century classrooms.

# Art Classes

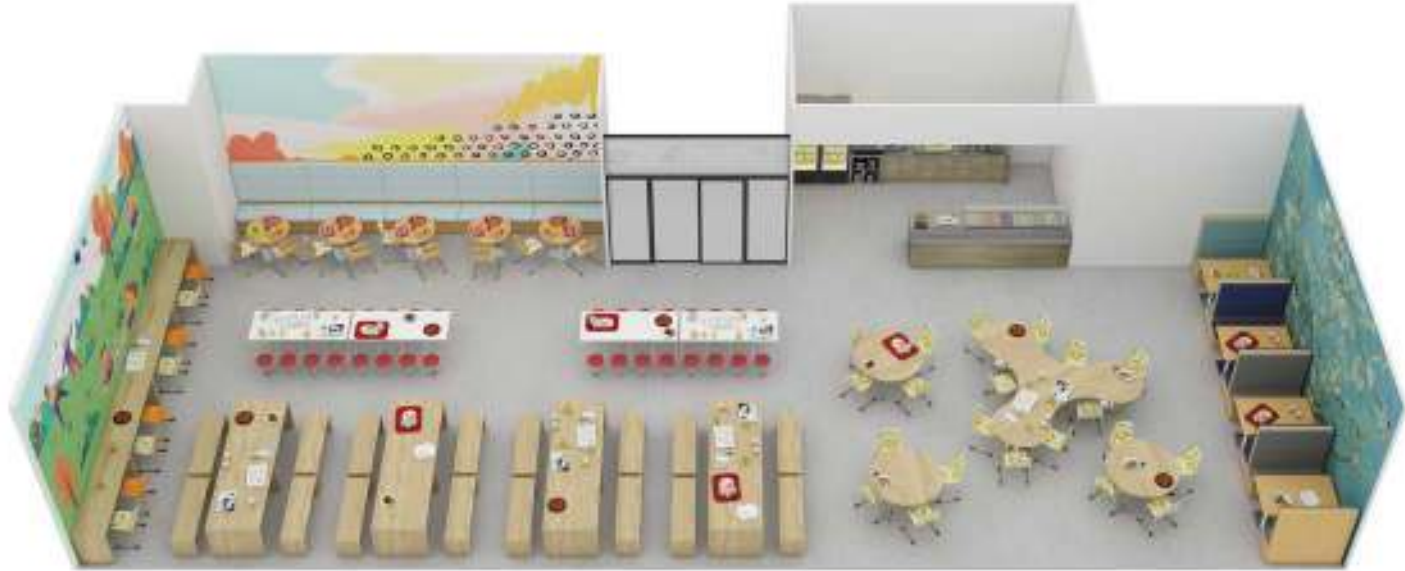

From potato prints to clay sculptures and every artistic discipline in between, the art classrooms in our schools require a significant number of tools and materials – all of which need to be stored correctly. At ES we can completely customise the classroom to your requirements. From built in drying racks to ensure a full classes drawings and paintings can be dried to lockable art portfolio storage for student course work – we have developed a range of storage systems to maximise space and allow you to seamlessly deliver lessons throughout the day.

## Cafeteria

The generous zoning of the room allows for flexible changes and offers plenty of retreat possibilities. Cafeteria is a popular meeting point not just during day but also during evening events. Integrated lounge elements equipped with hygienic washable materials which are extremely resistant.

## HALF ARC TABLE

E011A

Half Arc Table have an elegant curvilinear shape that when nested together create visually stimulating collaborative pods. Paired with epoxy coated mild steel tube leg set, these tables offer a stable work surface for the classroom.

- Top available in 18mm thick Laminated Plywood or MDF and 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated worktop
- Table Height as per requirement

Size:

- E011A1 - 900 mm
- E011A2 - 1000 mm
- E011A3 - 1200 mm

Arrangement Options:

## QUARTER ARC TABLE

E011B

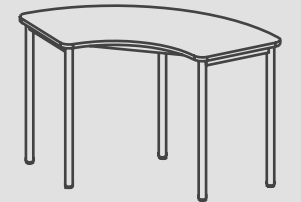

Wildly versatile table is ideal for areas which require both individual study and group work. Arrangements can make big circle groups or flowing lines. Paired with epoxy coated mild steel tube leg set, these tables offer a stable work surface for the classroom.

- Top available in 18mm thick Laminated Plywood or MDF and 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated worktop
- Table Height as per requirement

Size:

- E011B1 - 1237x500mm
- E011B2 - 1414x500mm
- E011B3 - 1614x500mm

Arrangement Options:

## HALF ARC TABLE

E011C

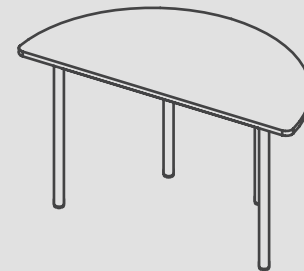

Half Arc Table provides sleek looks and solid functionality. For group work, combine two to make a circle. Paired with epoxy coated mild steel tube leg set, these tables offer a stable work surface for the classroom.

- Top available in 18mm thick Laminated Plywood or MDF and 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated worktop
- Table Height as per requirement

Size:

- E011C1 - 900mm length
- E011C2 - 1000mm length
- E011C3 - 1200mm length

Arrangement Options:

## RECTANGULAR TABLE

E011D

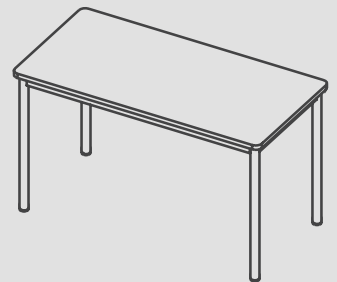

This sleek, contemporary table provides solid functionality. Its large work surface provides ample space for projects and work of all kinds. Paired with epoxy coated, mild steel tube leg set, these tables offer a stable work surface for the classroom.

- Top available in 18mm thick Laminated Plywood or MDF and 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated worktop
- Table Height as per requirement

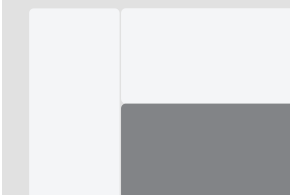

Size:

- E011D1 - 900x600mm
- E011D2 - 1000x600mm
- E011D3 - 1200x600mm

Arrangement Options:

## QUARTER ARC TABLE

E011E

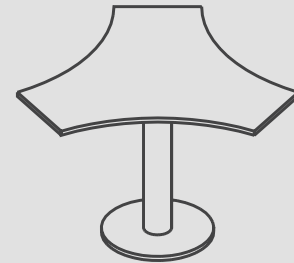

V table is specifically designed to create interactive learning spaces, allowing the user to configure various different shapes by using multiple V tables. Paired with epoxy coated mild steel tube leg set, these tables offer a stable work surface for the classroom.

- Top available in 18mm thick Laminated Plywood or MDF and 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated worktop
- Table Height as per requirement

Size:

- E011E1 - 1237x500mm
- E011E2 - 1414x500mm
- E011E3 - 1614x500mm

Arrangement Options:

## CRESCENT TABLE

E011F

Crescent table is a fun shape that can be arranged in a variety of creative ways. Use a single Cookie table or join multiple together for a larger footprint collaborative space. Paired with epoxy coated mild steel tube leg set, these tables offer a stable work surface for the classroom.

- Top available in 18mm thick Laminated Plywood or MDF and 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated worktop
- Table Height as per requirement

Size:

- E011F1 - 900mm Dia
- E011F2 - 1000mm Dia
- E011F3 - 1200mm Dia

Arrangement Options:

## TRAPEZOIDAL TABLE

E011G

This versatile contemporary table provides sleek looks and solid functionality. For group work, combine two to make a hexagon or more to make an big octagon. Paired with epoxy coated mild steel tube leg set, these tables offer a stable work surface for the classroom.

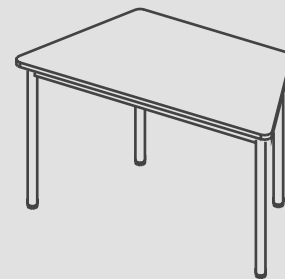

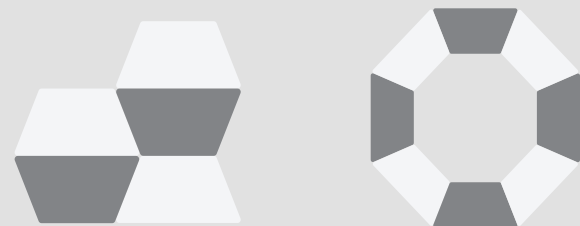

- Top available in 18mm thick Laminated Plywood or MDF and 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated worktop
- Table Height as per requirement

Size:

- E011G1 - 900x600mm
- E011G2 - 1000x600mm
- E011G3 - 1200x600mm

Arrangement Options:

## TRIANGULAR TABLE

E011H

Triangular table provides any number of options for all kinds of new arrangements and set-ups. Paired with epoxy coated mild steel tube leg set, these tables offer a stable work surface for the classroom.

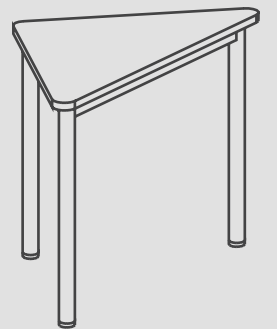

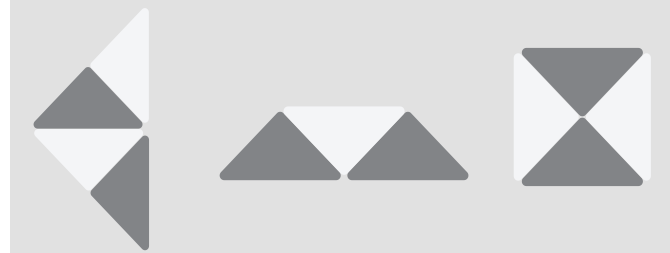

- Top available in 18mm thick Laminated Plywood or MDF and 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated worktop
- Table Height as per requirement

Size:

- E011H1 - 900x450mm
- E011H2 - 1000x500mm
- E011H3 - 1200x600mm

Arrangement Options:

**SLICE TABLE**

E0111

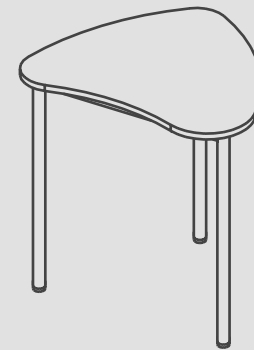

Slice table is a compact design can be use standalone or creates a large circular team table. Paired with epoxy coated mild steel tube leg set, these tables offer a stable work surface for the classroom.

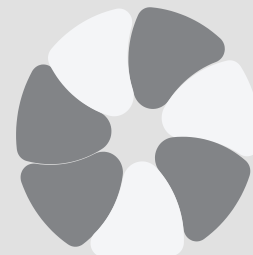

- Top available in 18mm thick Laminated Plywood or MDF and 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated worktop
- Table Height as per requirement

Size:  
E01111 - 730 x 713mm

Arrangement Options:

## STUDENT TABLE

E012A

- Top available in 18mm thick Laminated Plywood or MDF and 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated worktop
- With wired basket under the top
- Structure made with epoxy coated mild steel with glides and end cap
- Table Height as per requirement

Size :  
 E012A1 - 700x500mm  
 E012A2 - 1200x500mm

## 72 SERIES STUDENT TABLE

E012B

- Top 3-layer particleboard surface, melamine coated, Highly abrasion resistant, seamless with 3mm plastic edge, thickness: 25 mm
- Satchel hook right or both sides with 2-seater tables
- Structure made with epoxy coated mild steel with glides and end cap
- Table Height as per requirement

Size:  
 E012B1 - 700x500x760mm  
 E012B2 - 700x500x820mm  
 E012B3 - 1300x500x760mm  
 E012B4 - 1300x500x820mm

## STUDENT TABLE

E012C

- Top from 25mm thick MDF material desk top with melamine with PP injection edge
- With wired basket under the top
- Structure made with epoxy coated mild steel with glides and end cap
- Table Height as per requirement

Size:  
 E012C1 - 700x500x640mm  
 E012C2 - 700x500x760mm  
 E012C3 - 1300x500x640mm  
 E012C4 - 1300x500x760mm

## 7280 SERIES STUDENT TABLE

E012D

- Top, 3-layer particleboard surface, melamine coated, Highly abrasion resistant, seamless with 3 mm plastic edge, thickness: 25 mm
- Both sides with a stacking rack and integrated hooks and stacking buffer
- Structure made with epoxy coated mild steel with glides and end cap
- Table Height as per requirement

Size:  
 E012D1 - 700x500x760mm  
 E012D2 - 700x500x820mm

## 85 SERIES STUDENT TABLE

E012E

- Top 3-layer particleboard surface, melamine coated, Highly abrasion resistant, seamless with 3mm plastic edge, thickness: 25 mm
- Satchel hook right or both sides with 2-seater tables
- With wire basket under the desktop
- Structure made with epoxy coated mild steel with glides and end cap
- Table Height as per requirement

Size:

E012E1 - 700x500x760mm  
E012E2 - 700x500x820mm  
E012E3 - 1300x500x760mm  
E012E4 - 1300x500x820mm

## HORSE SHOE TABLE

E014A

Great for small group instruction and interaction, this contemporary table provides sleek looks and solid functionality. Its work surface provides ample space for projects and work of all kinds. Paired with epoxy coated mild steel tube leg set, these tables offer a stable work surface.

- Top available in 18mm thick Laminated Plywood or MDF and 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated worktop
- Table Height as per requirement

E014A1 - 1800x600mm

## ATOM TABLE

E014B

Atom table is an ideal collaborative desk in a flexible learning space. The shape helps students feel comfortable, allowing for more or less personal space, depending on their individual preference. Paired with epoxy coated mild steel tube leg set with round base, these tables offer a stable work surface.

- Top available in 18mm thick Laminated Plywood or MDF and 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated worktop
- Table Height as per requirement

Size:

E014B1- 2705x2463mm  
E014B2- 3005x2737mm  
E014B3- 3606x3284mm

## BENCH SET

E014C

Bench table is a modern yet practical addition to any collaboration area. Model is featured here along with matching seating.

- Available in 24mm thick Laminated Plywood or MDF or 40mm thick Solid Wood with natural or painted finish
- 2mm thick PVC edging for laminated worktop
- Height as per requirement

Size:

E014C1-TABLE- 1200x900mm  
E014C1-CHAIR- 1100x400mm  
E014C2-TABLE- 1800x900mm  
E014C2-CHAIR- 1700x400mm  
E014C3-TABLE- 2200x900mm  
E014C3-CHAIR- 2100x400mm

## FLOWER TABLE

E014D

Great for small group instruction and interaction, this contemporary table provides sleek looks and solid functionality. Its work surface provides ample space for projects and work of all kinds. Paired with epoxy coated mild steel tube leg set, these tables offer a stable work surface.

- Top available in 18mm thick Laminated Plywood or MDF and 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated worktop
- Table Height as per requirement

Size:

- E014D1- 900mm dia
- E014D2- 1000mm dia
- E014D2- 1200mm dia

## ROUND TABLE

E014E

Round table designed for collaborative learning provides sleek looks and solid functionality. Paired with epoxy coated mild steel tube leg set, these tables offer a stable work surface.

- Top available in 18mm thick Laminated Plywood or MDF and 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated worktop
- Table Height as per requirement

Size:

- E014E1- 900mm dia
- E014E2- 1000mm dia
- E014E2- 1200mm dia

## RECTANGULAR TABLE

E013A

- Top available in 12mm thick Solid Surface (Acrylic), 24mm thick Laminated MR MDF, 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated
- Frame made with round pipe with square base in chrome finish
- Table Height as per requirement

Size:

- E013A1 - 1400x900x750mm
- E013A2 - 1800x900x750mm
- E013A3 - 2400x900x750mm
- E013A4 - 1400x1000x750mm
- E013A5 - 1800x1000x750mm
- E013A6 - 2400x1000x750mm
- E013A7 - 1400x1200x750mm
- E013A8 - 1800x1200x750mm
- E013A9 - 2400x1200x750mm

## ROUND TABLE

E013B

- Top available in 12mm thick Solid Surface (Acrylic), 24mm thick Laminated MR MDF, 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated
- Frame made with round pipe with round base in chrome finish
- Table Height as per requirement

Size:

## SQUARE TABLE

E013C

- Top available in 12mm thick Solid Surface (Acrylic), 24mm thick Laminated MR MDF, 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated
- Frame made with round pipe with square base in chrome finish
- Table Height as per requirement

Size:

- E013C1 - 900x900x750mm
- E013C2 - 1000x1000x750mm
- E013C3 - 1200x1200x750mm

## D TABLE

E013D

- Top available in 12mm thick Solid Surface (Acrylic), 24mm thick Laminated MR MDF, 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated
- Frame made with round pipe with square base in chrome finish
- Table Height as per requirement
- Side panel made of 24mm thick laminated MR MDF

Size:

- E013D1 - 1200x900x750mm
- E013D2 - 1800x900x750mm
- E013D3 - 2400x900x750mm
- E013D4 - 1200x1200x750mm
- E013D5 - 1800x1200x750mm
- E013D6 - 2400x1200x750mm

## CAFETERIA UNIT

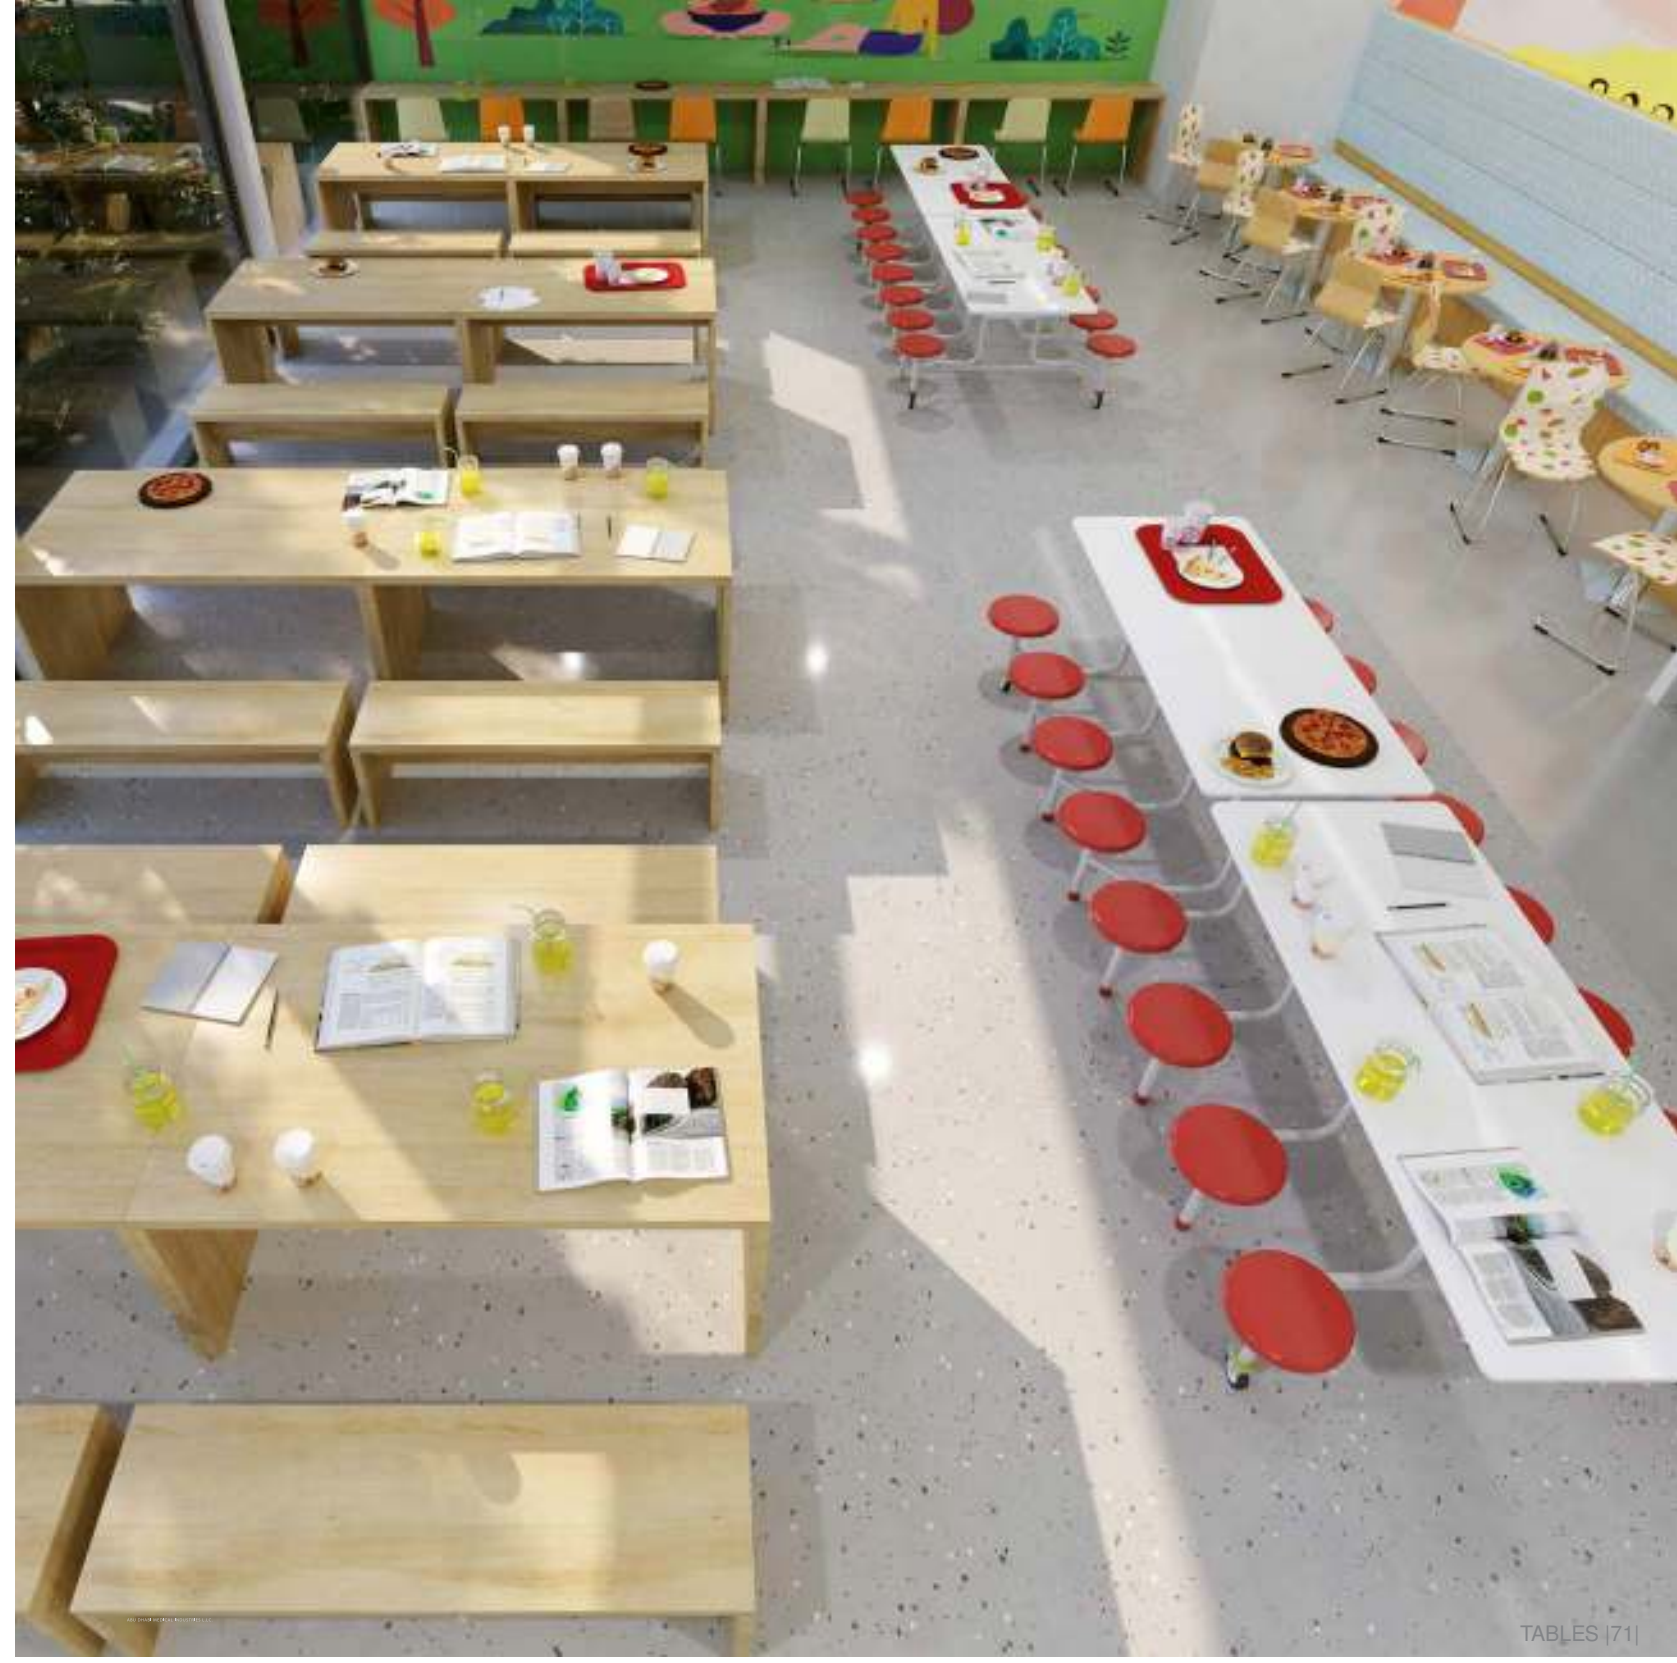

E011E

Cafeteria Units can serve 25%-40% more students than tables with chairs in the same space. Tables with attached seats eliminate the noise of chairs moving around and banging together. They also eliminate aisle blockage and the 'horseplay' that can occur with chairs.

Available with foldable, movable and different shape and number of seats.

*Please contact with our sales team for more information.*

E033I1

- Ergonomically shaped plastic pan made from robust recyclable polypropylene in 7 attractive colours
- Inverse sitting, saddle sitting and casual sitting are also supported by the shape
- Easy to clean thanks to the special a2s surface structure
- Channel for venting and relieving back strain
- Finger hole in the lumbar region, handles to the top back edge and underside of the chair
- Flex with the globally patented Z-shape frame, optional cross brace for even more stability

supports muscle tone with its ergonomic shape and promotes variable, anti-tiring sitting, e.g. saddle seats.

Seat pan with integrated air ducts without holes which prevents soiling to the inner shell and mildew.

A2S floorsafe® floor protectors protect the flooring even if the chair is wobbled, patent # 10 2010 039 292 A1

C-shape with A2S floorsafe® floor protectors, can be hung on tables

## PAGHOLZ COLOUR WOOD

The impressive features of Pagholz® are also available in 5 attractive colours. The natural, warm structure of the beech wood remains intact. The coloured surface is, of course, scratch- and impact-resistant as usual. The environmentally-friendly staining process developed by A2S can be done with all Pagholz pans with all available frames. Pagholz® colour wood is ideal for combining with our upholstery fabrics, too.

## PAGHOLZ COLOUR

You can add a splash of colour to all our Pagholz pans with Pagholz® colour. The colour is completely opaque and long-lasting when applied to the surface and enhances the natural delicacy of the seat pan. Due to the high levels of stress to the seat, we only offer Pagholz colour with seat cushions. From just 20 chairs per order, any Pagholz pan with all available frames comes in the standard colours Satin Matte Black and White. Should you want a custom colour, please speak to your A2S adviser.

## PAGHOLZ FABRIC FINISH

Printed fabrics with visible textile structure on the front of the Pagholz pans lend the chair a personal touch and bring an individual feel-good atmosphere to any room. The fabric surface is sealed with melamine resin. This results in a smooth, sealed surface. The chair can be cleaned and is, as usual with Pagholz®, scratch- and impact-resistant. Fabric finishes can be added to seat pans in the 72 Series as well as to the Woodplac® seat and back sets. Choose from 5 designs that we always have available or design your own pattern – just speak to your A2S adviser.

**FABRIC FINISHES**

1. Cow Print 220
2. Floral 220
3. Abstract 220
4. City 220
5. Floral 220

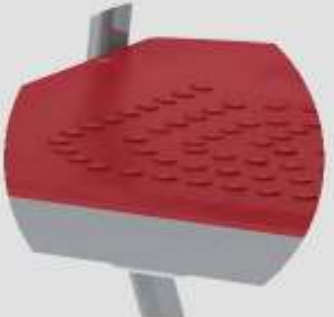

## 71 SERIES

- Ideal for small rooms with limited space as there are no chair legs to get in the way when entering and leaving
- Extremely robust and durable thanks to the solid wood design
- Stable welded oval tubing made from 2 mm thick tubular steel, scratch-resistant thanks to powder coating
- Highly scratch-resistant wooden surfaces thanks to our unique woodplac melamine coating (models 7100, 7130, 7132)
- Concealed fixings to seat and back protect against injuries and enable rapid removal and replacement

variable and durable: seat and back are secured with concealed screws or rivets.

Anti-slip seating with embossed dimples on fittings with Woodplac wood elements

ABS floor protectors are gentle on the flooring, protect the chair legs from scratches and are easy to replace

with writing tablet

with upholstered seat and back

stacks 5 chairs high

### BEAN BAG

E033I1

- High-quality, very sturdy 1680D polyester outdoor cover
- Inner bag with safety zip
- The cover is easy to remove and washable at 30°C
- The filling is strong styrene-reduced EPS micro-beads for a healthy atmosphere, guaranteed to keep its shape for longer
- Loads of up to 110 kg

Size:  
E033I1 - 930mm dia x 1200 mm height

### FLOOR CUSHION

E033I2

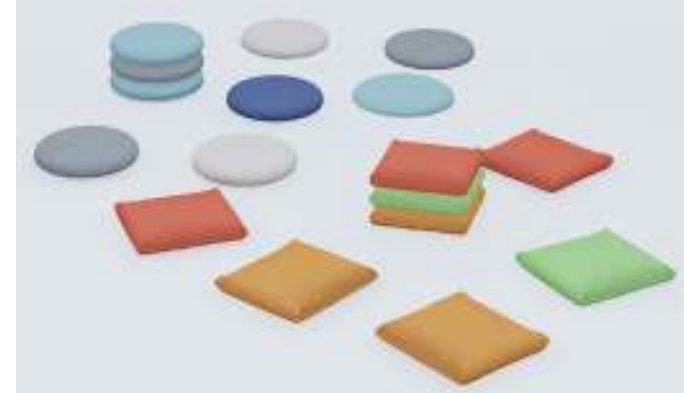

- High-quality, very sturdy 1680D polyester outdoor cover
- Inner bag with safety zip
- The cover is easy to remove and washable at 30°C
- The filling is strong styrene-reduced EPS micro-beads for a healthy atmosphere, guaranteed to keep its shape for longer
- Loads of up to 110 kg

Size:  
E012I2 - 700x700x150 mm

## CUSHION

E033I3

- Upholstered in a durable PVC or Fabric finish with high density foam provides seating comfort.
- Can be match with stages,benches,library units.

Size:  
E033I3- 450 mm dia x 150 mm height  
E033I3- 450x450x150 mm

## SOFA

E033J

- Upholstered in a sturdy construction and durable PVC or Fabric finish with high density foam provides seating comfort.
- a wide selection of colours and materials can be chosen as required

Size:  
E033J1 - 800x790x820 mm  
E033J2 - 1440x790x820 mm  
E033J3 - 2120x790x820 mm

## MOBILE WHITE BOARD

E111A

- Magnetic porcelain finish board sheet white
- With 9mm thick MDF internal panel
- With aluminium profile side rail and with pen tray
- Metal frame from 50x25x2mm thick Mild steel tube with epoxy powder coating
- With 50mm dia swivel castor 2 nos. with break diagonally

Size:

E111A1 - 1500mm x 1000mm

## WHITE BOARD

E111B

- Magnetic porcelene finish board sheet white
- Back from 9mm thick MDF with aluminium foil tape
- With aluminium profile side rail
- with pen tray

Size:

E111B1 - 2400x1200mm

E111B2 - 1800x1200mm

E111B3 - 1200x1200mm

## BOOK SHIP

E111C

- 6mm thick cork board with fabric for notice board
- Back from MDF with aluminium foil tape
- With aluminium profile side rail

Size:

E111B1 - 2400x1200mm

E111B2 - 1800x1200mm

E111B3 - 1200x1200mm

## MEDIA UNIT

O033A

- Media Unit with TV niche from 18mm thick Laminated MDF
- Top available in 12mm thick Solid Surface (Acrylic), 24mm thick Laminated MR MDF, 13mm thick Solid Core HPL
- Magnetic porcelain finish board sheet white
- Legs with powder coated mild steel
- Available with swivel castors

Size:

Worktop Height - 750mm

O033A1 - 1400x1600x1750 mm

O033A2 - 2000x1600x1750 mm

Worktop Height - 1100mm

O033A3 - 1400x1600x1750 mm

O033A4 - 2000x1600x1750 mm

## MOBILE BOARD

O033B

- Magnetic porcelain finish board sheet white
- With 9mm thick MDF internal panel
- Metal frame from 50x25x2mm thick Mild steel tube with epoxy powder coating
- With 50mm dia swivel castor 4 nos. with break diagonally

Size:

O033B1 - 1200x450x1850 mm  
O033B2 - 1500x450x1850 mm  
O033B3 - 2000x450x1850 mm

## MOBILE BOARD WITH SHELVES

O033C

- Magnetic porcelain finish board sheet white
- With 9mm thick MDF internal panel
- Shelves from 18mm thick Laminated MDF
- Metal frame from 50x25x2mm thick Mild steel tube with epoxy powder coating
- With 50mm dia swivel castor 4 nos. with break diagonally

Size:

O033C1 - 1200x450x1850 mm  
O033C2 - 1500x450x1850 mm  
O033C3 - 2000x450x1850 mm

## MOBILE BOARD WITH SHELVES

O033D

- Magnetic porcelain finish board sheet white
- With 9mm thick MDF internal panel
- Shelves from 18mm thick Laminated MDF
- Metal frame from 50x25x2mm thick Mild steel tube with epoxy powder coating
- With 50mm dia swivel castor 4 nos. with break diagonally

Size:

O033D1 - 1200x450x1850 mm  
O033D2 - 1500x450x1850 mm  
O033D3 - 2000x450x1850 mm

## MOBILE BOARD WITH CABINET

O033E

- Magnetic porcelain finish board sheet white
- With 9mm thick MDF internal panel
- Shelves from 18mm thick Laminated MDF
- Metal frame from 50x25x2mm thick Mild steel tube with epoxy powder coating
- With 50mm dia swivel castor 4 nos. with break diagonally

Size:

O033E1 - 1200x450x1850 mm  
O033E2 - 1500x450x1850 mm  
O033E3 - 2000x450x1850 mm

## MOBILE BOARD WITH BENCH

O033F

- Magnetic porcelain finish board sheet white
- With 9mm thick MDF internal panel
- Shelves from 18mm thick Laminated MDF
- Metal frame from 50x25x2mm thick Mild steel tube with epoxy powder coating
- Upholstered in a durable PVC or Fabric finish with high density foam provides seating comfort.
- With 50mm dia swivel castor 4 nos. with break diagonally

Size:

O033F1 - 1200x450x1850 mm  
O033F2 - 1500x450x1850 mm  
O033F3 - 2000x450x1850 mm

## MOBILE BOARD WITH BENCH

O033G

- Magnetic porcelain finish board sheet white
- With 9mm thick MDF internal panel
- Shelves from 18mm thick Laminated MDF
- Metal frame from 50x25x2mm thick Mild steel tube with epoxy powder coating
- Upholstered in a durable PVC or Fabric finish with high density foam provides seating comfort.
- With 50mm dia swivel castor 4 nos. with break diagonally

Size:

O033G1 - 1200x450x1850 mm  
O033G2 - 1500x450x1850 mm  
O033G3 - 2000x450x1850 mm

## ZIG ZAG LOCKER

E051A

- Structure available in 18mm thick Laminated MR MDF or 13mm thick Solid Core HPL
  - Back panel 6mm thick one side laminated faced MR MDF or 6mm thick Solid Core HPL
  - 2mm thick PVC edging for laminated
  - Accessories consist of the following:  
Door Knob  
Door Lock with Master Key  
Chrome Coat Hook  
Chrome Hanger Rod  
Number Plate Holder for MR MDF Door  
Number Engrave for Solid Core HPL Door
- Size:  
E051A1 - 700x450x1800mm

## BENCH WITH COAT HOOKS

E053A

- Seating & backrest from 40x40mm thick Solid Wood with natural lacquer finish or 13mm thick Solid Core HPL
  - Top panels from 20mm thick Solid Wood with natural lacquer finish or 13mm thick Solid Core HPL
  - 2mm thick PVC edging for laminated
  - Solid wood finish:  
Natural Lacquer Finish or Paint Finish
  - Support frame epoxy powder coated mild steel tube with floor levelling jack
  - Accessories: Chrome Coat Hook
- Size:  
E053A1 - 1200x630x1700mm

## PIGEON HOLE

E054A

- Panels & shelves from 18mm thick Laminated MDF or 13mm thick Solid Core HPL
  - Back panel 6mm thick one side laminated faced MDF or 6mm thick Solid Core HPL
  - 2mm thick PVC edging for laminated
- Size:  
E054A1 - 1200x300x1500mm

## PIGEON HOLE

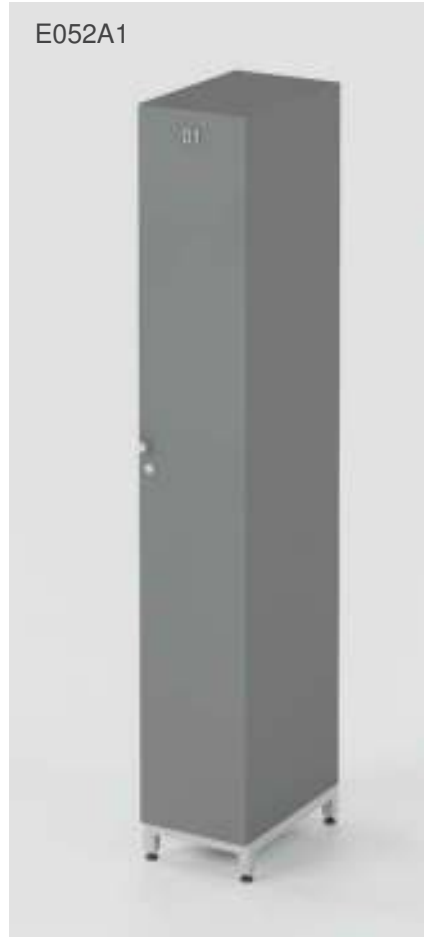

E054B

- Panels & shelves from 18mm thick Laminated MDF or 13mm thick Solid Core HPL

### CLOAK ROOM CABINET-1

E055A

- Panels & shelves from 18mm thick Laminated MDF or 13mm thick Solid Core HPL
- Back panel 6mm thick one side laminated faced MDF or 6mm thick Solid Core HPL
- 2mm thick PVC edging for laminated

Size:  
E055A1 - 600x600x1200mm

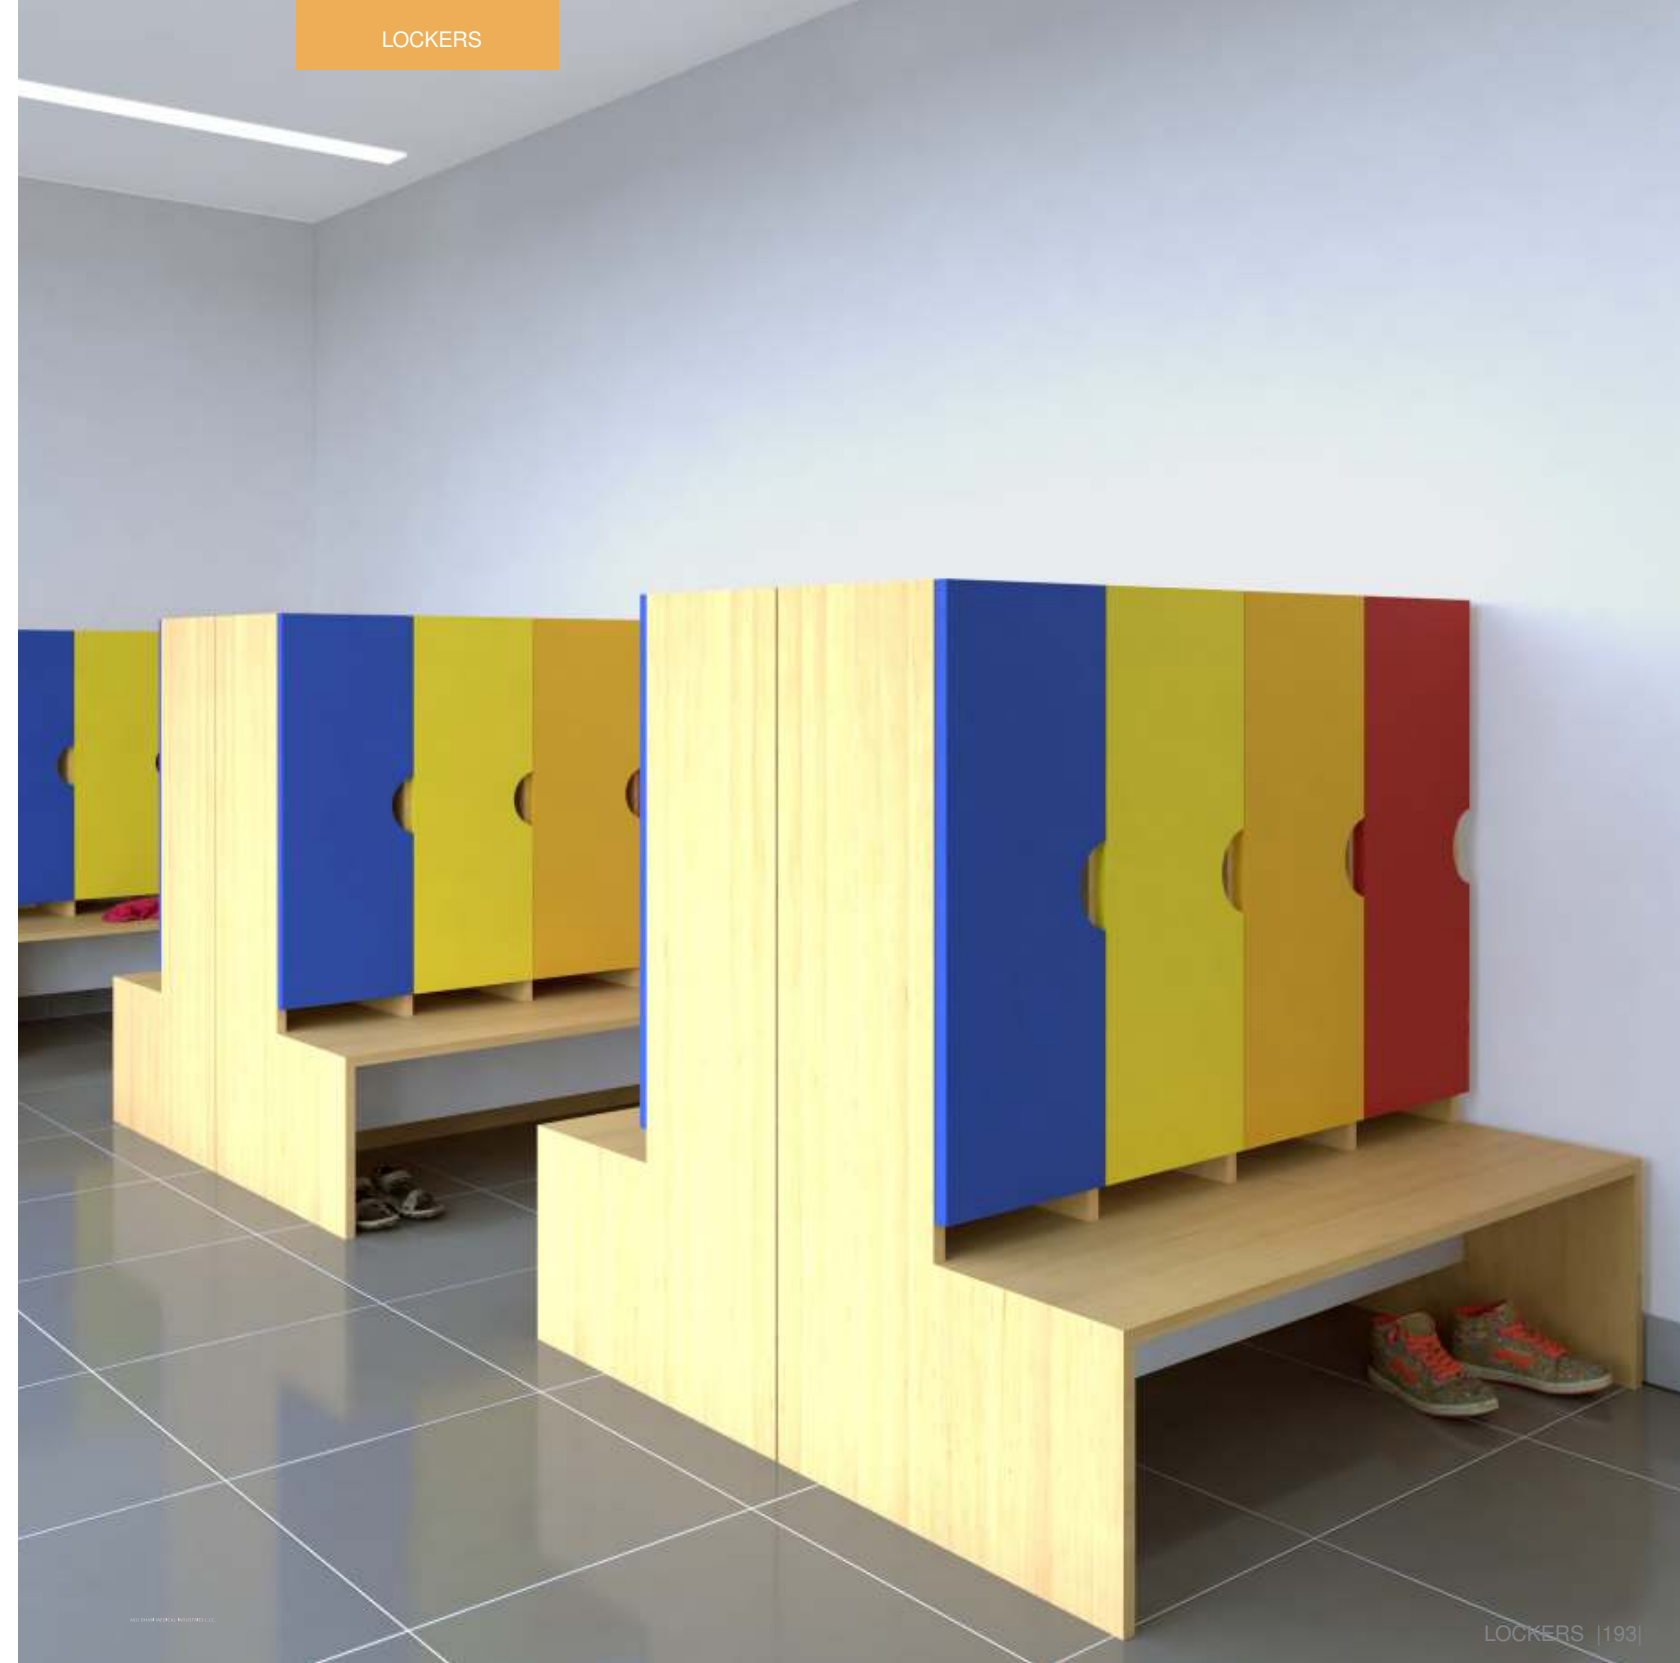

### CLOAK ROOM CABINET-2

E055B

- Panels & shelves from 18mm thick Laminated MDF or 13mm thick Solid Core HPL
- Back panel 6mm thick one side laminated faced MDF or 6mm thick Solid Core HPL
- 2mm thick PVC edging for laminated

Size:  
E055B1 - 1200x600x1200mm

### GIRAFFE CLOAK ROOM UNIT-1

E056A

- Panels & shelves from 18mm thick Laminated MDF or 13mm thick Solid Core HPL
- Back panel 6mm thick one side laminated faced MDF or 6mm thick Solid Core HPL
- 2mm thick PVC edging for laminated
- Accessories: Chrome Coat Hook

Size:  
E056A1 - 600x600x1200mm

### GIRAFFE CLOAK ROOM UNIT-2

E056B

- Upholstered in a sturdy construction and durable PVC or Fabric finish with high density foam provides seating comfort.
- a wide selection of colours and materials can be chosen as required
- Accessories: Chrome Coat Hook

Size:  
E056B1 - 1200x600x1200mm

### COLOR CLOAK ROOM UNIT-1

E057A

- Complete panels from 18mm thick Laminated MDF or 13mm thick Solid Core HPL
- Support frame from epoxy powder coated mild steel tube with floor levelling jack
- 2mm thick PVC edging for laminated
- Bottom shelf epoxy powder coated mild steel rod

Size:  
E057A1 - 600x400x1200mm

### COLOR CLOAK ROOM UNIT-2

E057B

- Complete panels from 18mm thick Laminated MDF or 13mm thick Solid Core HPL
- Support frame from epoxy powder coated mild steel tube with floor levelling jack
- 2mm thick PVC edging for laminated
- Bottom shelf epoxy powder coated mild steel rod

Size:  
E057B1 - 700x700x150 mm

**BENCHES-1**

E058A

- Seating top & panels from 18mm thick Laminated MDF or 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated
- Bottom shelf epoxy powder coated mild steel rod

Size:  
E058A1 - 600x400x350mm

**BENCHES-2**

E058B

- Seating top & panels from 18mm thick Laminated MDF or 13mm thick Solid Core HPL
- 2mm thick PVC edging for laminated
- Bottom shelf epoxy powder coated mild steel rod

Size:  
E058B1 - 1200x400x350mm

**WALL MOUNTED SHELF-1**

E058D

- Panels & shelves from 18mm thick Laminated MDF or 13mm thick Solid Core HPL

Size:  
E058D1 - 600x300x300mm

**WALL MOUNTED SHELF-2**

E058E

- Panels & shelves from 18mm thick Laminated MDF or 13mm thick Solid Core HPL

Size:  
E058E1 - 1200x300x300mm

## ANGLE COLLABORATION SYSTEM

Collaboration system multi-functional, multi-zone can be configured to create different types of working spaces. It's a structure that instantly creates variety of flexible space without needing bring in builders. Users can move the seating to suit what they are doing.

For meetings seating can be arranged around a table, nested into the space with their back to the wall so users face each other. For presentation and brain storms the seats can be arranged to face the surface which can be used as a whiteboard and the seating can be arranged in multiple configurations to accommodate various collaborative tasks. It can be done with various heights and because it is a modular system we can design exactly the right size and seating combination for your space. It is a great solution for creating flexible spaces without any construction needed.

## MOVE SERIES SEAT 1

E074A

- Movable Seating unit with storage
- From 18mm MDF or Plywood with 0.9mm thick High Pressure Decorative Laminate (HPDL) hot pressed
- 2mm thick PVC edging
- Upholstered in a durable PVC or Fabric finish with High density foam provides seating comfort.
- Heavy duty swivel castor with 2 breaks diagonally

Size:  
E074A1- 1500x700x1100mm

## MOVE SERIES SEAT 2

E074B

- Movable Seating unit with storage and desk on the back side
- From 18mm MDF or Plywood with 0.9mm thick High Pressure Decorative Laminate (HPDL) hot pressed
- 2mm thick PVC edging
- Upholstered in a durable PVC or Fabric finish with High density foam provides seating comfort.
- Heavy duty swivel castor with 2 breaks diagonally

Size:  
E074B1 - 1150x1500x1100mm

## MOVE SERIES SHELF 1

E074C

- Movable storage unit
- From 18mm MDF or Plywood with 0.9mm thick High Pressure Decorative Laminate (HPDL) hot pressed
- 2mm thick PVC edging
- Upholstered in a durable PVC or Fabric finish with High density foam provides seating comfort.
- Heavy duty swivel castor with 2 breaks diagonally

Size:  
E074C1 - 1200x600x900mm

## MOVE SERIES SHELF 2

E074D

- Movable storage unit
- From 18mm MDF or Plywood with 0.9mm thick High Pressure Decorative Laminate (HPDL) hot pressed
- 2mm thick PVC edging
- Upholstered in a durable PVC or Fabric finish with High density foam provides seating comfort.
- Heavy duty swivel castor with 2 breaks diagonally

Size:  
E074D- 1200x700x900mm

## MOVE SERIES BOARD

E074E

- Movable White board unit with storage shelves
- From 18mm MDF or Plywood with 0.9mm thick High Pressure Decorative Laminate (HPDL) hot pressed
- 2mm thick PVC edging
- Upholstered in a durable PVC or Fabric finish with High density foam provides seating comfort.
- Heavy duty swivel castor with 2 breaks diagonally

Size:  
E058A- 600x400x350mm

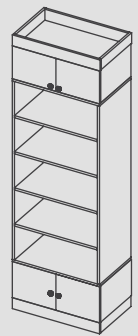

## NEST SERIES

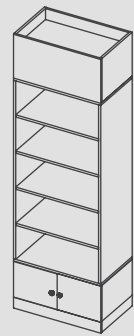

Nest Series is a highly adaptable, modular system which can be easily reconfigured to suit the confines of any space. Available in many finishes, it blends in with the design scheme of any interior.

## WORKSHOP STORAGE

E079C

- Structure available in 16mm thick Solid phenolic resin chemical resistant / 24mm thick Laminated MDF or plywood / 30mm thick Solid Wood & Stainless steel with plywood base
- 2mm thick PVC edging for laminated
- Optional heavy duty swivel castor with 2 breaks diagonally

Size:

E079C1- 1440x600x850mm

## WORKSHOP STORAGE

E079D

- Structure available in 16mm thick Solid phenolic resin chemical resistant / 24mm thick Laminated MDF or plywood / 30mm thick Solid Wood & Stainless steel with plywood base
- 2mm thick PVC edging for laminated
- Optional heavy duty swivel castor with 2 breaks diagonally

Size:

E079D1- 1440x600x850mm

# MAKER SPACE

## WORKSHOP SHELF

E079E

- Shelf selection of 16mm thick Solid phenolic resin chemical resistant / 24mm thick Laminated MDF or plywood / 30mm thick Solid Wood & Stainless steel with plywood base
- 2mm thick PVC edging
- Frame structure available in MS powder coating color as per client choice
- Optional heavy duty swivel castor with 2 breaks diagonally

Size:  
E079E1- 600x600x600mm

## WORKSHOP SHELF

E079F

- Shelf selection of 16mm thick Solid phenolic resin chemical resistant / 24mm thick Laminated MDF or plywood / 30mm thick Solid Wood & Stainless steel with plywood base
- 2mm thick PVC edging
- Frame structure available in MS powder coating color as per client choice
- Optional heavy duty swivel castor with 2 breaks diagonally

Size:  
E079F1- 600x600x1200mm

## WORKSHOP SHELF

E079G

- Shelf selection of 16mm thick Solid phenolic resin chemical resistant / 24mm thick Laminated MDF or plywood / 30mm thick Solid Wood & Stainless steel with plywood base
- 2mm thick PVC edging
- Frame structure available in MS powder coating color as per client choice
- Optional heavy duty swivel castor with 2 breaks diagonally

Size:  
E079G1- 600x600x1800mm

## WORKSHOP SHELF

E079H

- Shelf selection of 16mm thick Solid phenolic resin chemical resistant / 24mm thick Laminated MDF or plywood / 30mm thick Solid Wood & Stainless steel with plywood base
- 2mm thick PVC edging
- Frame structure available in MS powder coating color as per client choice
- Optional heavy duty swivel castor with 2 breaks diagonally

Size:  
E079H1- 1200x600x600mm

## WORKSHOP SHELF

E079I

- Shelf selection of 16mm thick Solid phenolic resin chemical resistant / 24mm thick Laminated MDF or plywood / 30mm thick Solid Wood & Stainless steel with plywood base
- 2mm thick PVC edging
- Frame structure available in MS powder coating color as per client choice
- Optional heavy duty swivel castor with 2 breaks diagonally

Size:  
E079I1- 1200x600x1200mm

E079J

- Shelf selection of 16mm thick Solid phenolic resin chemical resistant / 24mm thick Laminated MDF or plywood / 30mm thick Solid Wood & Stainless steel with plywood base
- 2mm thick PVC edging
- Frame structure available in MS powder coating color as per client choice
- Optional heavy duty swivel castor with 2 breaks diagonally

Size:  
E079J1- 1200x600x1800mm

## WORKSHOP WORK STATION

E079K

- Workshop table with services which can be selected to suit the use
  - From 18mm MDF or Plywood with 0.9mm thick High Pressure Decorative Laminate (HPDL) hot pressed
  - 2mm thick PVC edging
  - Frame structure available in MS powder coating color as per client choice
  - Non-standard materials are available for custom orders
- Size:
- E079K1- 1200x750x900mm
  - E079K2- 1500x750x900mm
  - E079K3- 1800x750x900mm
  - E079K4- 2000x750x900mm

## WORKSHOP WORK STATION

E079L

- Workshop workstation with services which can be selected to suit the use
  - From 18mm MDF or Plywood with 0.9mm thick High Pressure Decorative Laminate (HPDL) hot pressed
  - 2mm thick PVC edging
  - Frame structure available in MS powder coating color as per client choice
  - Non-standard materials are available for custom orders
- Size:
- E079L1- 1200x750x900mm
  - E079L2- 1500x750x900mm
  - E079L3- 1800x750x900mm
  - E079L4- 2000x750x900mm

## WORKSHOP WORK STATION

E079M

- Workshop workstation with services which can be selected to suit the use
- From 18mm MDF or Plywood with 0.9mm thick High Pressure Decorative Laminate (HPDL) hot pressed
- 2mm thick PVC edging
- Frame structure available in MS powder coating color as per client choice
- Non-standard materials are available for custom orders

Size:

- E079M1- 1200x750x900mm
- E079M2- 1500x750x900mm
- E079M3- 1800x750x900mm
- E079M4- 2000x750x900mm

## WORKSHOP WORK STATION

E079N

- Workshop workstation with services which can be selected to suit the use
- From 18mm MDF or Plywood with 0.9mm thick High Pressure Decorative Laminate (HPDL) hot pressed
- 2mm thick PVC edging
- Frame structure available in MS powder coating color as per client choice
- Non-standard materials are available for custom orders

Size:

- E079N1- 1200x1200x900mm

## WORKSHOP WORK STATION

E079O

- Workshop workstation with services which can be selected to suit the use
- From 18mm MDF or Plywood with 0.9mm thick High Pressure Decorative Laminate (HPDL) hot pressed
- 2mm thick PVC edging
- Frame structure available in MS powder coating color as per client choice
- Non-standard materials are available for custom orders

Size:

- E079O1- 1200x1200x900mm

## WORKSHOP WORK STATION

E079P

- From 18mm MDF or Plywood with 0.9mm thick High Pressure Decorative Laminate (HPDL) hot pressed
- 2mm thick PVC edging
- Frame structure available in MS powder coating color as per client choice
- Non-standard materials are available for custom orders

Size:

- E079P1- 1400x500x900mm

## WORKSHOP STORAGE

E079Q

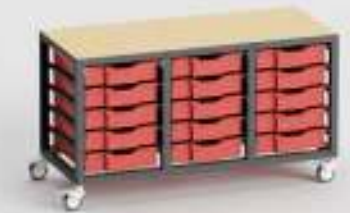

- Structure available in 18mm MDF or Plywood with 0.9mm thick High Pressure Decorative Laminate (HPDL) hot pressed and Mild steel sheet epoxy powder coating
- Frame structure available in MS powder coating color as per client choice
- Heavy duty swivel castor with 2 breaks diagonally
- Non-standard materials are available for custom orders

Size:  
E079Q1- 500x500x110mm

## WORKSHOP STORAGE

E079R

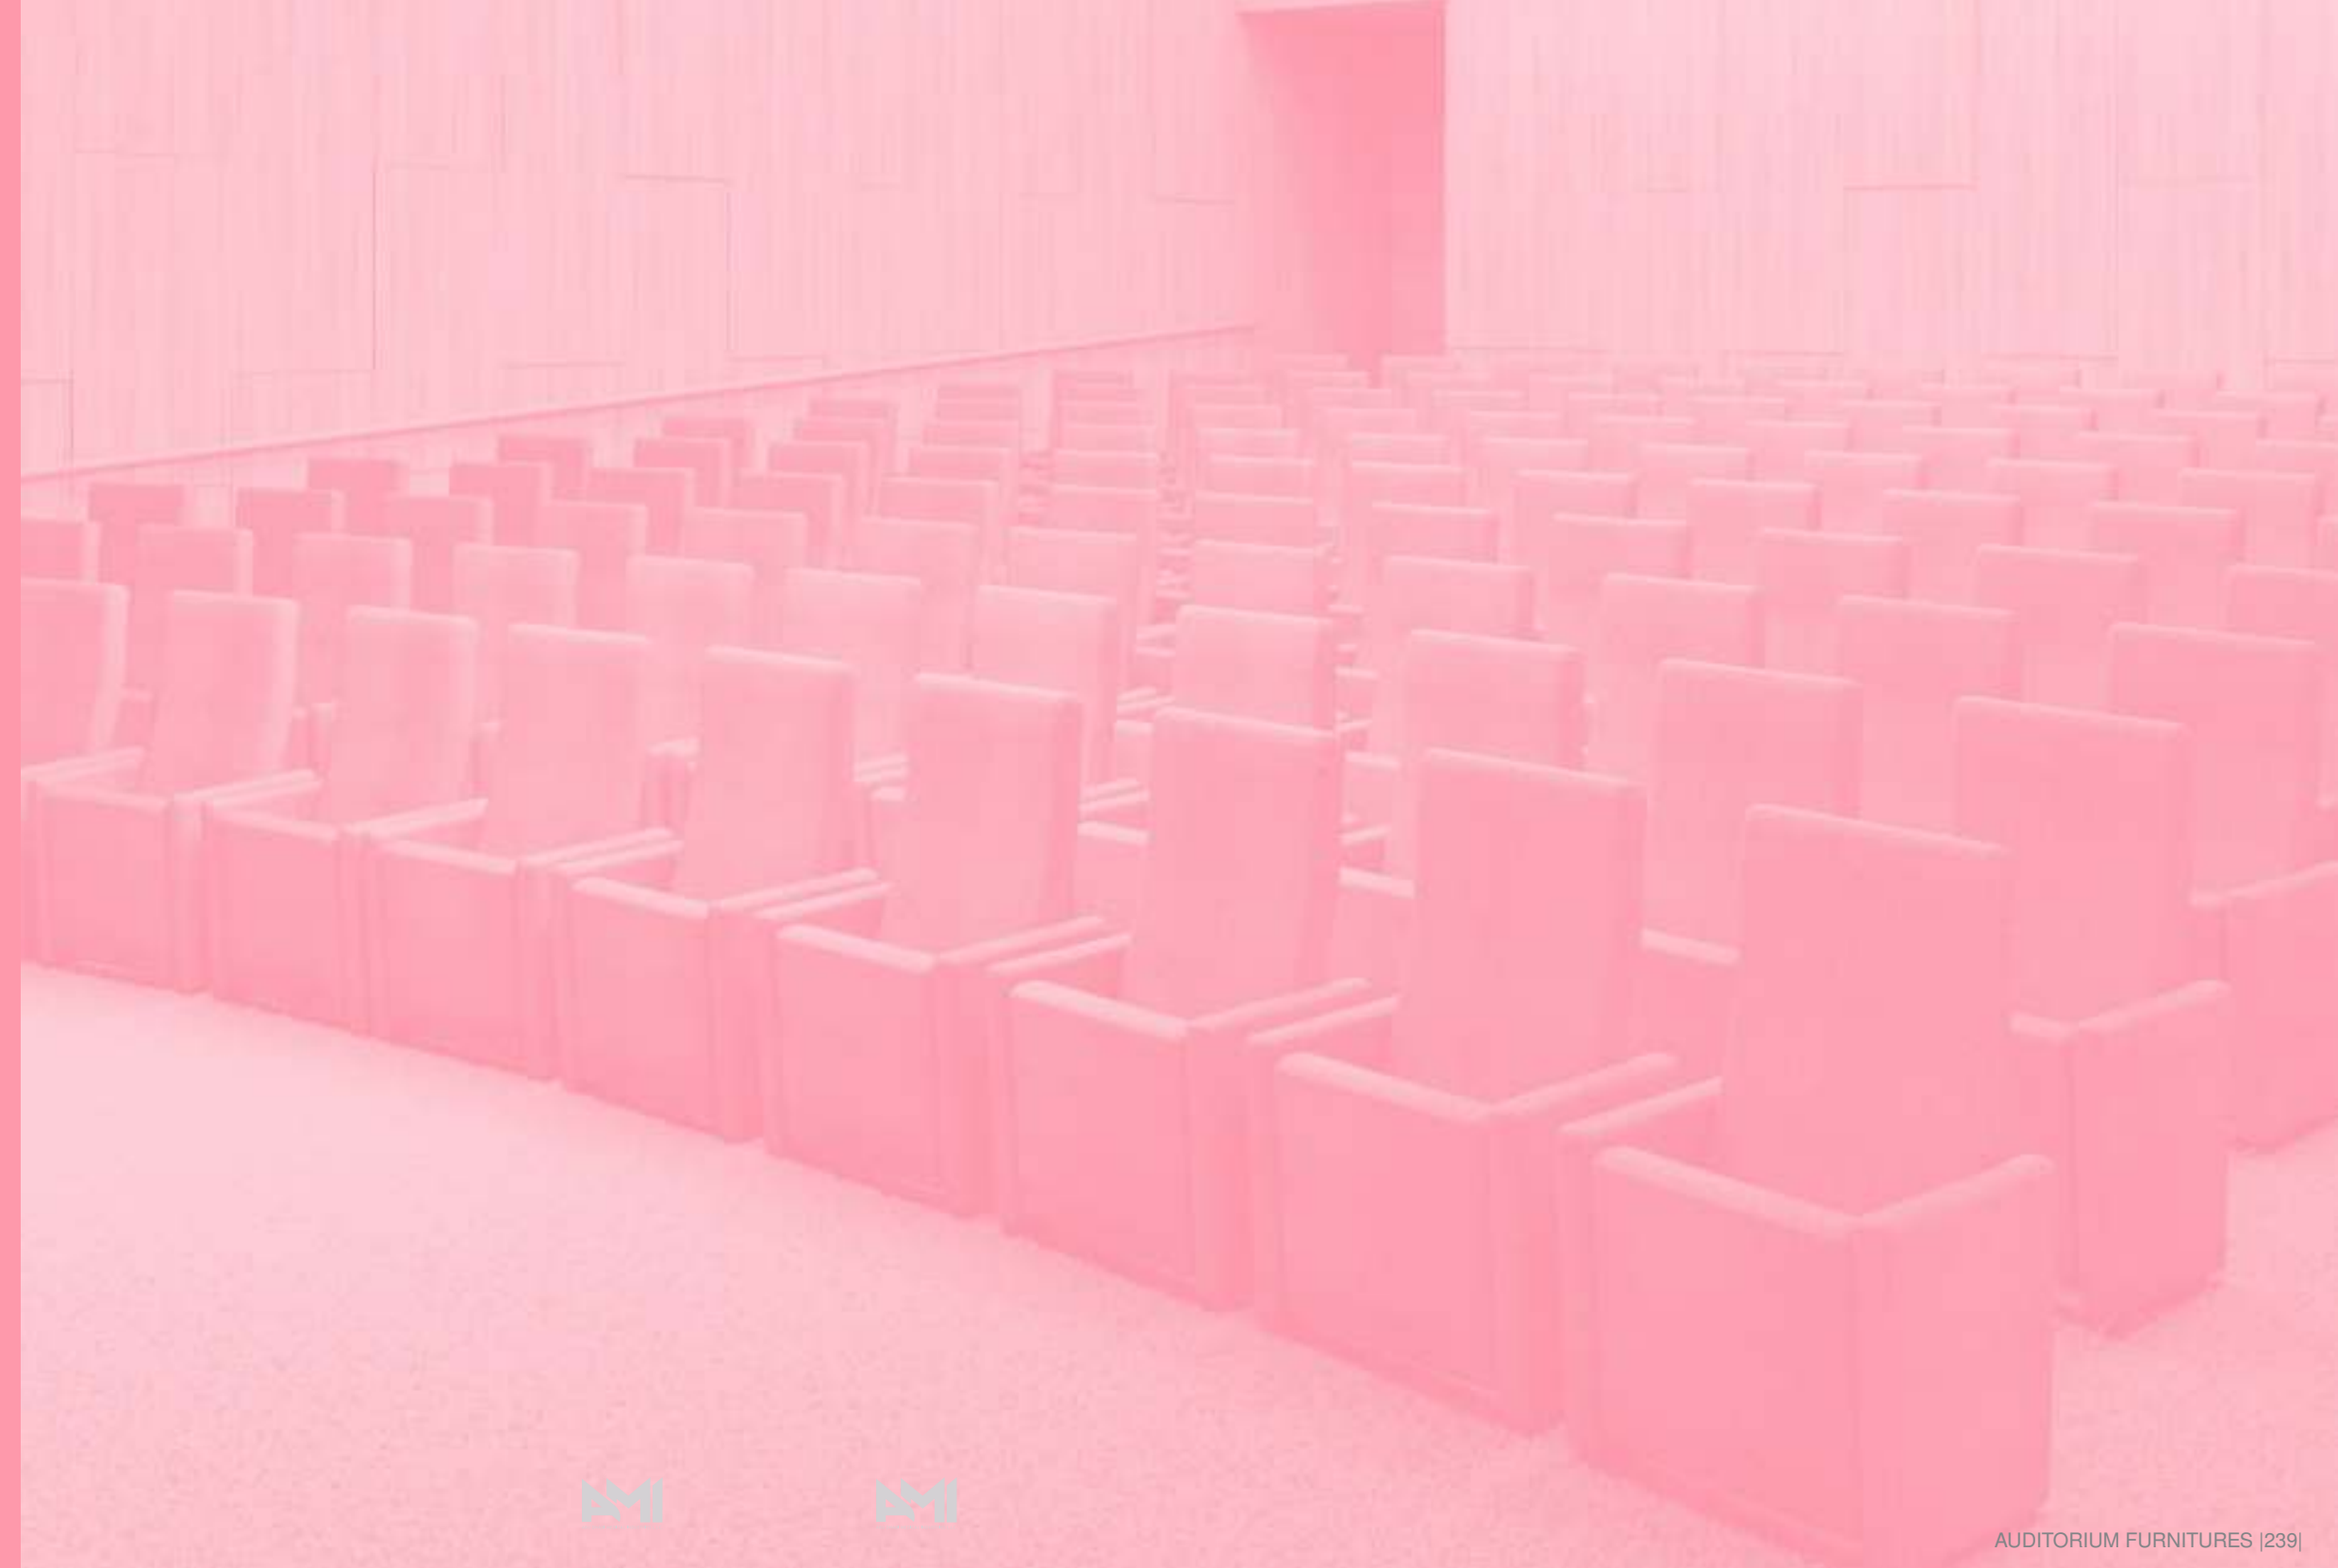

- Drawers shallow Tray with Plastic Runner
- Trays available in wide range of color for selection
- Frame structure available in MS powder coating color as per client choice
- Heavy duty swivel castor with 2 breaks diagonally

Size:  
E076R1- 1080x450x600mmmm

# AUDITORIUM FURNITURES

Conference Seats . . . . . 226  
Podiums . . . . . 229

## CONFERENCE CHAIR - TULIP

E081A

- With circular and linear setup this design is an ideal system for auditoriums, conference and gyms, universities and school classes, such as show centers etc. variety of places.

*Please contact with our sales team for more information.*

## CONFERENCE CHAIR - C2

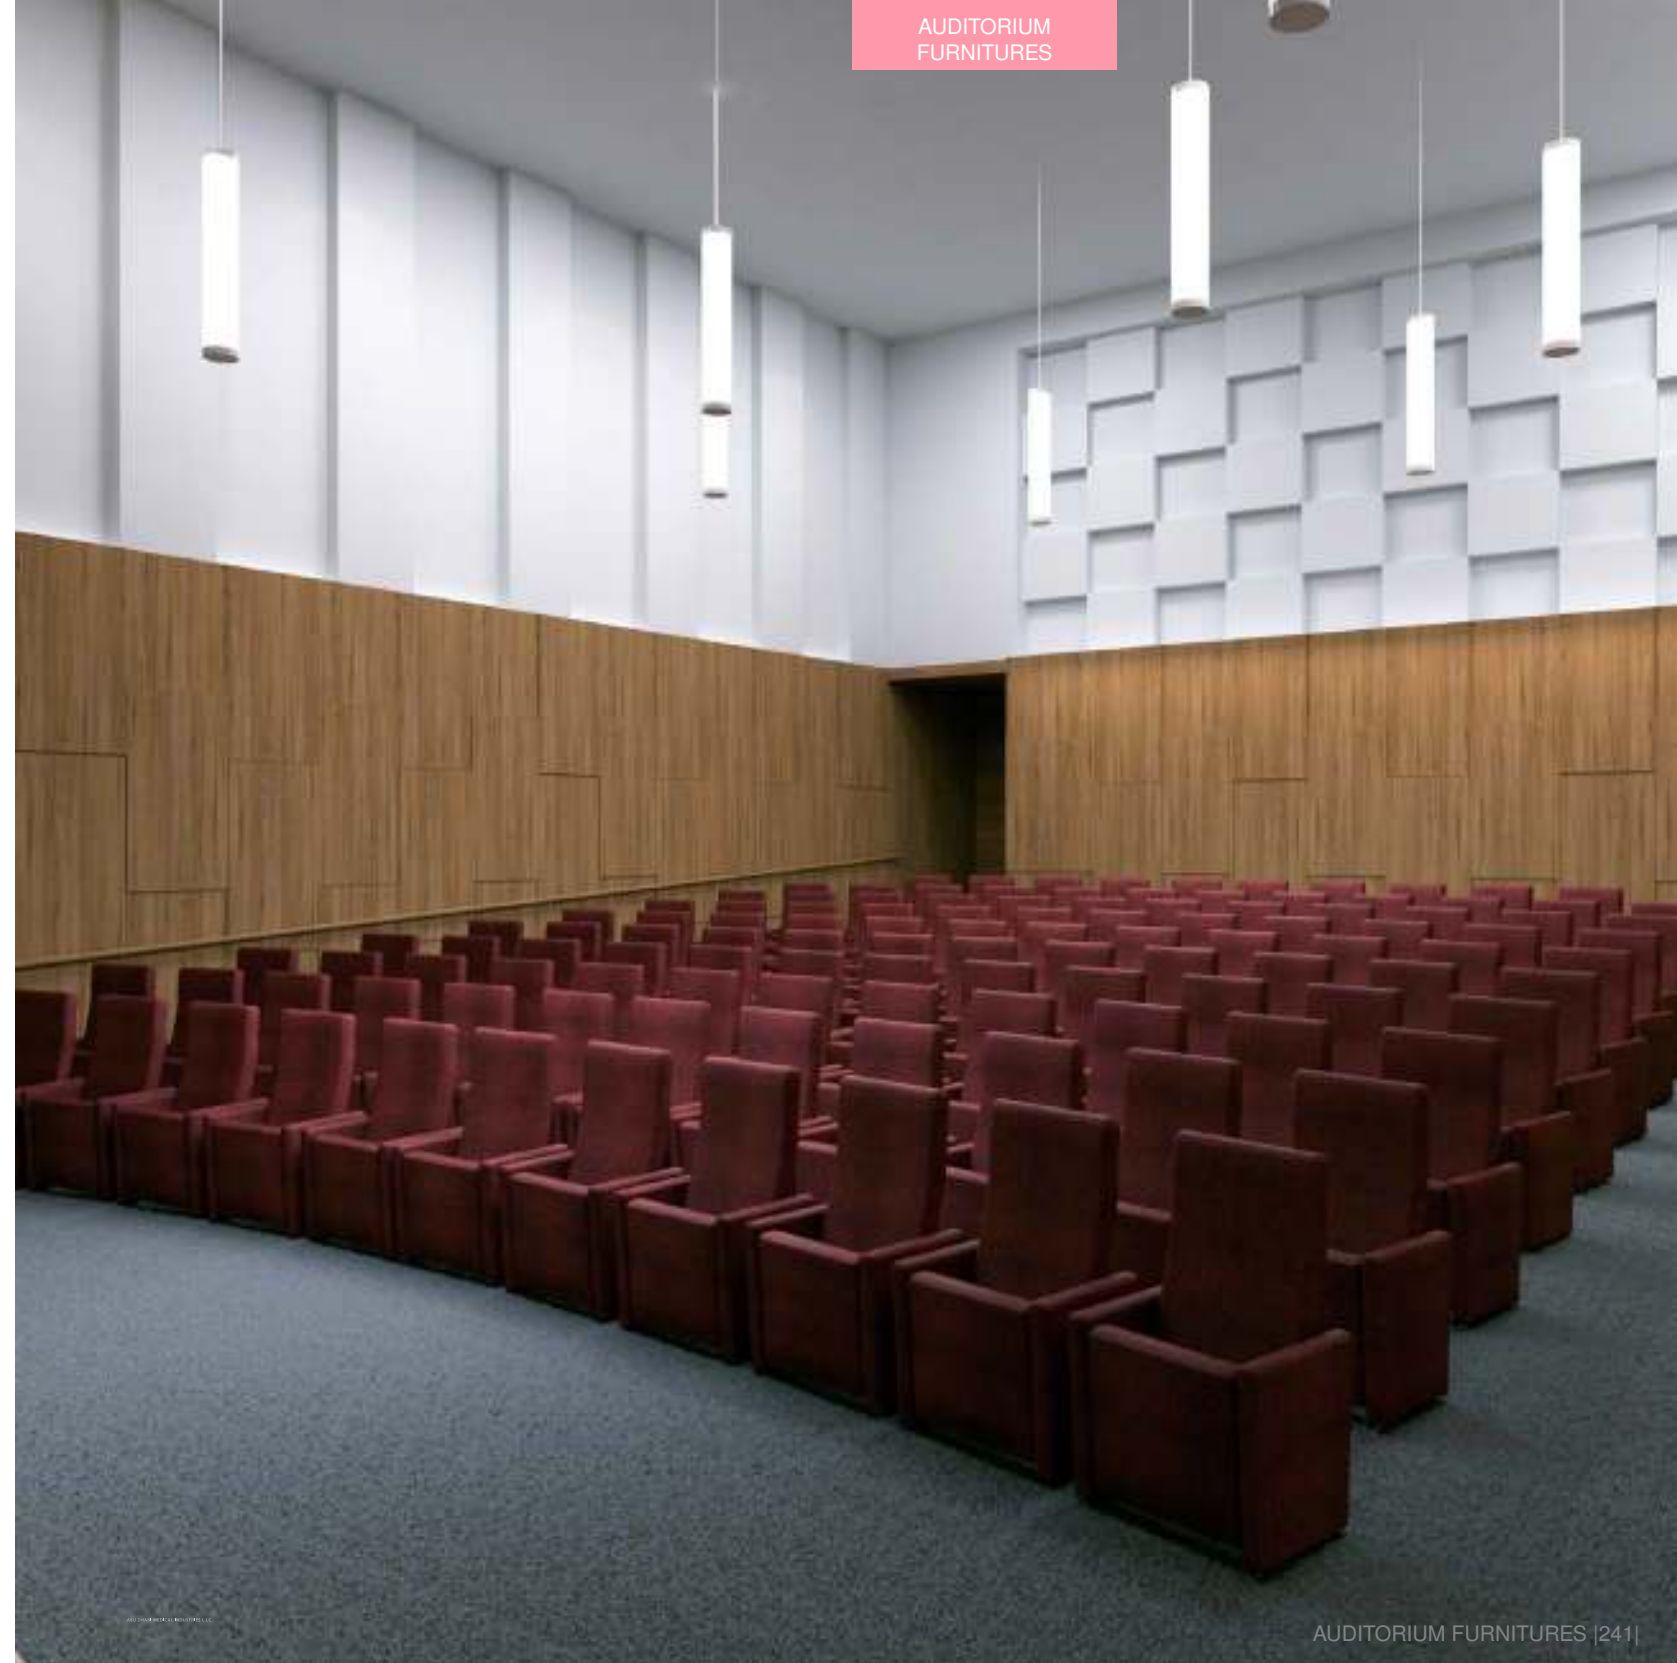

E081B

- With strong structure, aesthetic form is always the best solution for educational facilities

*Please contact with our sales team for more information.*

Size:  
E061B - 460x480x980mm

### CONFERENCE CHAIR - C3

E081C

- With strong structure, aesthetic form is always the best solution for educational facilities

*Please contact with our sales team for more information.*

Size:

### GENERAL SPECIFICATION

#### WORKTOP & SINK

To be selected to suit the application  
Worktops are mounted on Cabinets / Panels

#### SERVICES

To be selected to suit the application

#### SERVICE CHANNEL

Any EduScience standard service channel system can be used

#### COLOUR SCHEME

As per client choice

### CABINETRY

All Cabinets are mounted on pedestal of 100mm height  
Standard Dimension as per enclosed list

#### CORE MATERIALS

Standard material are Water Boiled Proof (WBP) Furniture  
Grade Plywood.

(Optional) Mild Steel Sheet, Stainless Steel Sheet as per  
client choice

Custom made which is non standard materials are possible  
as per client requirement.

Cabinet Body	18mm thick
Door/Drawer Front	18mm thick
Adjustable/Fixed Shelf	18mm thick
Back Wall	6mm thick
Drawer Bottom & Back	12mm thick

#### LAMINATE

Door/Drawer Front & Cabinet Carcass from 0.9mm thick  
High Pressure Decorative Laminate (HPDL) hot pressed  
Back wall & Drawer box from 0.6mm thick High Pressure  
Decorative Laminate (HPDL) hot pressed  
Textured finish, colour as per client choice.

#### EDGING

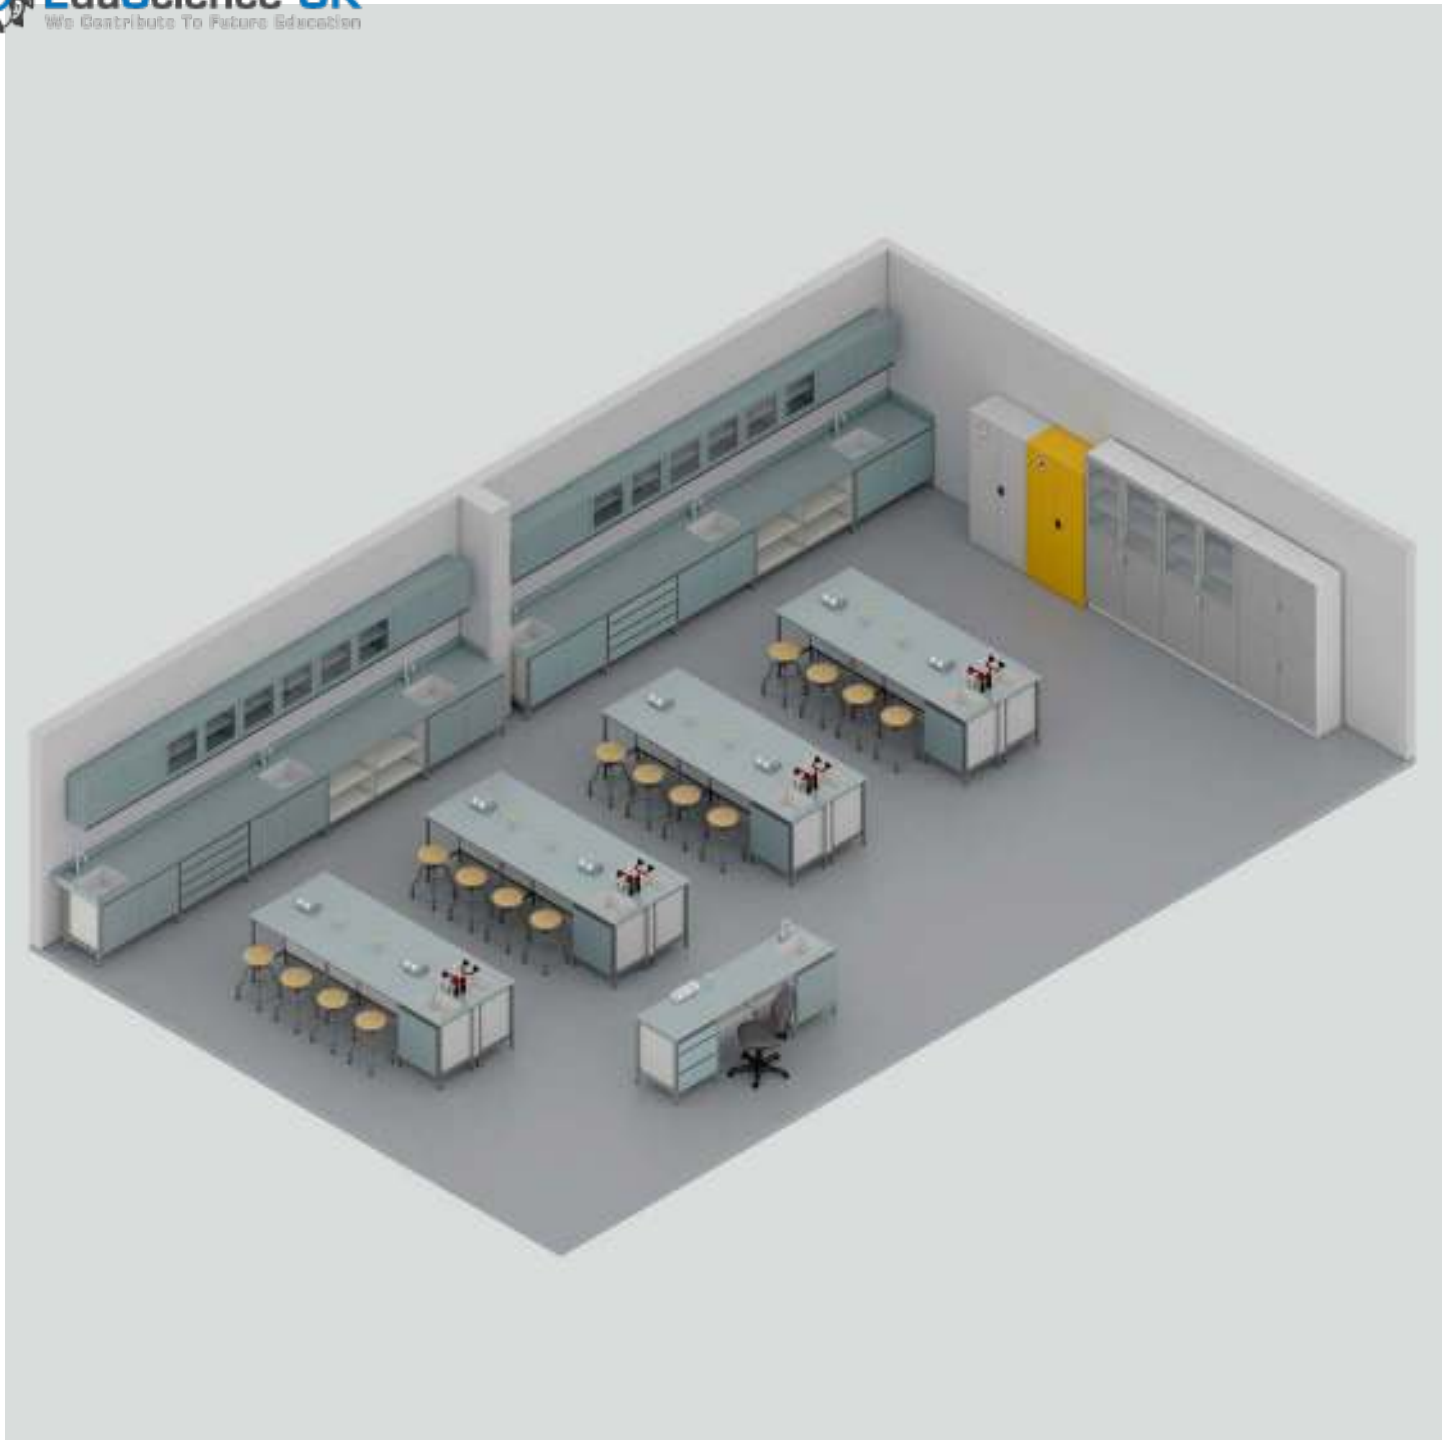

2mm thick PVC edging, hotmelt glued at 205 degree celsius  
for door & drawer fronts, 0.5mm thick tape edging hotmelt  
glued at 205 degree celcius for hidden part.

#### HINGES

Corrosion proof, clip on, soft closing hinges, opening up to  
170 Degree, adjustable in three directions.

#### HANDLE

Extruded aluminium grabrail, powder coated as per client  
choice of color or Handle Type as per selection

- L032A5: 900x460x1800mm

### FUME CUPBOARD

#### CHAMBER UNIT

The unit outer liner is melamine laminated plywood with internal liner of compact laminate for corrosion and chemical resistant. Back baffle is shaped from 9mm thick compact laminate. Inside hood is illuminated by 2 tubes fluorescent lighting, IP56. Front fascia are fixed with electrical sockets, water & gas outlets. Air flow monitor is provided & used for air velocity reading, fan, socket & light switch control. Airfoil in mild steel epoxy coated is fixed in front for smooth air passing. PVC exhaust collar located above hood along with electrical control box.

#### FRONT SASH

The vertical sliding sash door is from 6mm thick tempered glass with counter weight pulley system for easy opening & closing movement.

#### WORKTOP

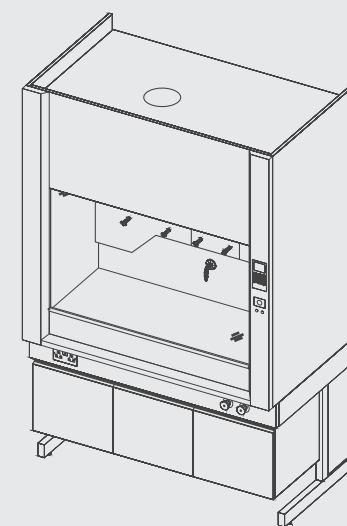

Chemical resistant worktop is made from 19mm thick solid epoxy, dished on edges for spill control. A cup sink made from polypropylene is also provided.

#### STORAGE CABINET

The chemical storage under bench cabinet is made from melamine laminated plywood with internal liner of compact laminate. Door shutter is with epoxy coated aluminum grab rail handle.

#### BASE FRAME

Heavy duty cantilever frame in ES System II is made from mild steel epoxy powder coated & treated against corrosion. It is fixed with adjustable feet to meet floor levelling and the frame is designed to meet accessibility of any services required behind hood.
